

LIVING HISTORY DAYS 2014

A Year-Long Celebration of the History, Traditions & Life of the Ethnic Germans

"Schwäbisches Hauskonzert" by STEFAN JÄGER

They all sit down at the table sharing not only the hearty meal but each other's company. They stop once before they eat to give thanks to their heavenly father, for giving them this food, this family and this promised land. The food on this table is home grown and raised. It is prepared with care and practice from recipes passed down from generations.
